## East of Eden Live Pictures

An elegantly simple alternative to the Live Panel system that can bring the benefits of living plants to your home, learning or work environment with our impressive Live Pictures. As well as being able to enjoy the beauty of plants, the Live Picture GO creates a healthier indoor climate, improves air quality and of course it's beautiful too!

Mounting is easy, needing only the two screws and installation guide we provide.

- Available in 4 colours
- Easy plant care
- Green design for indoor & outdoor

Its simplicity means you don't even need green fingers to enjoy the beauty of plants. Our Live Picture GO has its own indicator that will let you know when the water tank needs filling. It has enough water storage capacity to supply sufficient water for at least 4 weeks.

The Live Picture's versatility means it can be used both indoor and outdoor, as single or multiple units. Its plant cassettes are easily removable and you can fill the pockets with plants that match your own taste, allowing you complete flexibility to suit your own preferences or change them whenever you choose.

The Live Picture GO has a capillary feature within the plant cassette ensuring the plants are supplied with the correct amount of water without you needing to think about it.

## Live Room Divider.

The perfect system to create privacy, reduce noise and environmental air toxins. The Living room divider is adorned with vibrant plants on both sides and provides an aesthetic option for flexibility in how a room or office space is can be used.

## Preserved Moss Pictures

A completely maintenance free option are our Preserved Moss pictures and panels, which are excellent for very low light situations, where live plants will not thrive. Constructed from freeze-dried and preserved, sustainably grown cushion moss, they produce a very striking impact to your living or work space.

For a really striking impact install a combination of Moss with living wall
